Sudheer Amarthya

AI-First Growth Marketer | Performance Marketing | CRM Attribution | Automation | SEO and AEO

Bengaluru, India (open to remote) | +91 9042999747 | amarthya999@gmail.com | linkedin.com/in/sudheeramarthya

PROFILE

AI-first growth marketer with nearly 5 years of experience in high-ticket lead generation, including 4+ years running paid media. I connect Meta and Google spend to CRM stages and revenue, then use Claude Code to run analysis and build the automation, reporting and SEO systems a team needs.

WORK EXPERIENCE

Senior Performance Marketer, Imarticus Learning Jan 2024 - Present

Paid media results

- Run paid media for the MyCaptain sub-brand and three other product lines, including about **₹17.6L a month** on Meta and Google for one high-ticket programme.
- Update static creatives in the evening using AI and lead-quality data, so weak ads get new versions quickly.
- Use Claude Code with CRM, Meta Ads and Google Ads data to calculate quality metrics at creative, ad set, campaign and keyword level, then solve issues sooner.
- Reduced **cost per lead by about 37%** through lead form optimisation, creative A/B testing and controlled creative-level budget pacing; achieved a quarterly ROAS of 3.2.
- Improved Meta conversion rate from **0.75% to 1.30%** and reached **6.4% click-to-lead on Google Search** through keyword refinement, search-term analysis and landing page alignment.
- Cleaned Google search terms using historical data, building 800+ negative keywords and city-specific lists to cut wasted spend.

CRM analysis and funnel growth

- Linked creatives, lead form answers and CRM stages to judge campaigns on SQLs and sales, not CPL alone.
- Found a form setup with similar CPL, **55% higher SQL rate** and an estimated **42% lower cost per sale**; identified a paid-intent question where "Yes" leads converted to sale at more than **6x** the rate of "No" leads.
- Increased scholarship form completion from **6% to 16%** and lead-to-interest conversion from **14% to 23%** using WhatsApp and email automation.
- Led webinar reactivation with about 35% attendance, 1%+ conversion and **ROAS 9+**; built a 1:1 counselling funnel with about 60% attendance and 5%+ conversion.

Tracking and reporting systems

- Scoped and launched, using Claude Code, a live dashboard combining LeadSquared, Google Ads and Meta data with budget tracking.
- Designed a CRM-to-Google conversion plan so bidding can optimise for qualified leads, and delivered a Zoom to LeadSquared webinar data connector.

Digital Marketer (Founding Team), Bversity Jul 2022 - Dec 2023

- Delivered **ROAS 3.3** at 0.74% conversion with an average order value of ₹1.5L, using end-to-end marketing automation and lead management.
- Increased CTR from **0.35% to 0.85%** through structured creative A/B testing and audience experimentation.
- Managed Meta Ads as the primary channel, with LinkedIn Ads for high-intent, high-ticket audiences.

Early Career Dec 2020 - Jun 2022

Lead Generation Executive, Stack Console | Email Marketing Intern, Joy Technologies | Junior Graphic Designer, Signstar

INDEPENDENT AI MARKETING PROJECTS

- Built a CRM and messaging platform using Claude Code, with n8n and queue-based automation, WhatsApp journeys, AI replies and attribution reporting; used by one paying business customer.
- Built a 70-page marketing site with technical SEO, structured data, 268 FAQ answers for AEO and pages in 6 languages (traffic and AI citations not yet measured).
