Sudheer Amarthya

AI-First Performance Marketer | Meta and Google Ads | CRM Attribution | Data Analysis | Automation

Bengaluru, India (open to remote) | +91 9042999747 | amarthya999@gmail.com | linkedin.com/in/sudheeramarthya

PROFILE

AI-first performance marketer with nearly 5 years of experience in high-ticket lead generation, including 4+ years running paid media. I connect Meta and Google spend to CRM stages and revenue, then use Claude Code to run data analysis and build the automation and reporting a team needs.

WORK EXPERIENCE

Senior Performance Marketer, Imarticus Learning Jan 2024 - Present

Paid media results

- Plan and run about **₹62L a month** of Meta and Google spend across 3 programmes within finance-set budgets. One programme reached **151% of its October revenue target at 5.6x ROAS**; another hit **100% of September revenue on 81% of budget**.
- Use Claude Code with CRM, Meta and Google Ads data to score quality at creative, ad set, campaign and keyword level, and refresh static creatives each evening with AI.
- Reduced **cost per lead by about 37%** through lead form optimisation, creative A/B testing and controlled creative-level budget pacing; achieved a quarterly ROAS of 3.2.
- Improved Meta conversion rate from **0.75% to 1.30%** and reached **6.4% click-to-lead on Google Search** through keyword refinement, search-term analysis and landing page alignment.
- Cleaned Google search terms from historical data and pushed 800+ negatives and keyword changes through **Google Ads API scripts** with change logs.

CRM analysis and funnel growth

- Built **incrementality and MMM models** on 312K CRM leads and 6,386 sales (2024 to 2026) to separate real ad lift from CRM tagging, and designed city pause tests.
- Analysed **230 sales call recordings with Gemini** to rank objections, and built ICP tiers where 6% of leads gave 25% of buyers.
- Traced sales conversion through CRM stages: **3.1% lead to sale, 19% SQL to sale**, and **13.3% when reached within 1 hour** vs 0.9% after 7 days.
- Found a form setup with similar CPL, **55% higher SQL rate** and an estimated **42% lower cost per sale**; identified a paid-intent question where "Yes" leads converted to sale at more than **6x** the rate of "No" leads.
- Increased scholarship form completion from **6% to 16%** and lead-to-interest conversion from **14% to 23%** using WhatsApp and email automation.
- Led webinar reactivation with about 35% attendance, 1%+ conversion and **ROAS 9+**; built a 1:1 counselling funnel with about 60% attendance and 5%+ conversion.

Tracking and reporting systems

- Scoped and launched, using Claude Code, a live dashboard combining LeadSquared, Google Ads and Meta data with budget tracking.

Digital Marketer (Founding Team), Bversity Jul 2022 - Dec 2023

- Delivered **ROAS 3.3** at 0.74% conversion with an average order value of ₹1.5L, using end-to-end marketing automation and lead management.
- Increased CTR from **0.35% to 0.85%** through structured creative A/B testing and audience experimentation.

Early Career Dec 2020 - Jun 2022

Lead Generation Executive, Stack Console | Email Marketing Intern, Joy Technologies | Junior Graphic Designer, Signstar

INDEPENDENT AI MARKETING PROJECTS

- Built a CRM and messaging platform using Claude Code, with n8n and queue-based automation, WhatsApp journeys, AI replies and attribution reporting; used by one paying business customer.
- Audited website and AI-answer visibility with Search Console, GA4 and Bing data; found 0 of 4,521 website leads carried UTMs.
