PROFILE

AI-first performance marketer with nearly 5 years of experience in high-ticket lead generation, including 4+ years running paid media. I connect Meta and Google spend to CRM stages and revenue, then use Claude Code to run data analysis and build the automation and reporting a team needs.

WORK EXPERIENCE

Senior Performance Marketer, Imarticus Learning Jan 2024 - Present

Paid media results

- Manage about **₹62L a month** of Meta and Google ads across 3 courses. In October one course made **151% of its revenue target**, earning **₹5.6 for every ₹1 spent**; in September another hit its full target on **81% of its budget**.
- Cut **cost per lead by about 37%** with better lead forms and creative tests, and earned ₹3.2 per ₹1 spent across a quarter.
- Raised the Meta lead rate from **0.75% to 1.30%** of visitors; on Google Search **6.4% of ad clicks became leads**. Blocked 800+ wasted search terms using Google Ads API scripts.
- Use Claude Code with CRM and ad data to find poor-quality leads by ad, audience and keyword, and refresh image ads each evening with AI.

Sales data analysis

- Built **marketing mix models (MMM)** on 312K leads and 6,386 sales to measure how many sales the ads really caused, not just what CRM tags claimed.
- Used Gemini to review **230 sales calls**, rank the reasons people did not buy, and define the best buyers: **6% of leads gave 25% of buyers**.
- Showed that leads called within 1 hour bought at **13.3%**, against 0.9% when called after 7 days.
- Found that leads who said "Yes" to a will-you-pay question bought **6x more often**; lifted scholarship form completion from **6% to 16%** with WhatsApp and email automation.
- Ran webinar campaigns that earned **₹9+ for every ₹1 spent**.

Digital Marketer (Founding Team), Bversity Jul 2022 - Dec 2023

- Earned **₹3.3 for every ₹1 spent** selling a ₹1.5L course, with marketing automation and lead management built end to end.
- More than doubled ad click rate, from **0.35% to 0.85%**, through creative and audience tests.

Early Career Dec 2020 - Jun 2022

Lead Generation Executive, Stack Console | Email Marketing Intern, Joy Technologies | Junior Graphic Designer, Signstar

AI AGENTS AND TOOLS I BUILT (WITH CLAUDE CODE)

- **AI marketing agent:** a chat assistant with 100 actions that sends messages, creates campaigns, makes images and answers questions about CRM data.
- **WhatsApp sales agent:** replies to leads from ads, asks qualifying questions, follows up for 72 hours and hands interested leads to a person.
- **Workflow builder:** drag-and-drop journeys that start on a lead's action and send WhatsApp, email or SMS; used by a paying business customer.
- **Team dashboard:** LeadSquared, Meta and Google data in one place, refreshed every hour, with access by role.

SKILLS

Paid media: Meta Ads, Google Ads, LinkedIn Ads, lead forms, creative testing, budget planning, full-funnel strategy
Attribution and data: MMM, incrementality tests, SQL, Python, LeadSquared, qualified-lead and cost-per-sale analysis, conversion tracking, Coefficient, Excel, Google Sheets, dashboards
Automation and AI: Claude Code, Gemini API, Apify, n8n, ManyChat, Gupshup, Brevo, MoEngage, Zapier, Meta and Google Ads APIs
Web and analytics: GA4, Search Console, Clarity, Swipe Pages, WordPress, Wix, Keyword Planner, SEMrush, Canva, Figma

EDUCATION

MBA, Manipal Academy of Higher Education, 2026 | B.Tech Biotechnology, Bannari Amman Institute of Technology, 2020 | Digital Marketing Pro Course, MyCaptain, 2022
